

Meet Our New Director: Shelley Duncan

I want to take this opportunity to thank the board of Central Plains Health Care Partnership for this wonderful opportunity. I realize I have big shoes to fill, following Anne Nelson’s wonderful leadership since the inception of Project Access. In the short time I have been here I have learned so much and, of course, am still learning. I am sincerely humbled by the wonderful staff we have, and the amazing generosity of so many physicians, hospitals, dentists, laboratories, etc. I also recognize the financial support we receive from United Way, Sedgwick County, the City of Wichita, various foundations and generous donors; all of whom allow us to continue this amazing program. I am so thankful to all who support Central Plains and look forward to continued success in truly making a lifesaving difference for so many people.

You know me...

- 2 Surgeons
- 2 Hip Replacements
- \$13,993.76 in donated care

Kevin works as a security officer. He has been employed with the same company for 16 years and was instructing a Tae Kwan Do class. He doesn’t get paid if he isn’t able to be at work. He began to have worsening hip pain due to arthritis, which made working nearly impossi-

ble. Kevin was referred to Project Access by his primary care physician at HealthCore. He was able to see an Orthopedic surgeon in order to have his hips replaced. The first surgeon he met with told Kevin that he needed to lose 60 pounds in order to have a hip replaced. Kevin did the work and lost the weight required to have his first hip surgery. He says that without these hip replacement surgeries he would be in constant pain and have very limited mobility. “Getting up now, without any pain, is unreal,” says Kevin. He has two children whom he cares for, and his quality of life has been highly improved. Kevin is currently back at work and able to support his family.

Thank you!

Many thanks to our most recent partners who have chosen to support the work of Central Plains Health Care Partnership through Project Access.

- \$10,000 from Blue Cross Blue Shield of Kansas
- \$1,070 from Dillon's Community Rewards
- \$2,250 from The Medical Society of Sedgwick County
- \$15,000 from GraceMed Health Clinic
- \$3,160 from 14 private donations

We would also like to thank the many physicians, hospitals and the network of donated care that this community provides for Project Access patients.

You are compassionate and caring in providing funds to help Central Plains coordinate health care for low-income patients without health insurance. Due to cuts in funding, please help by donating at www.cphcp.com. Thank you!
