

You know me.

Danielle is a housekeeper and lives in Derby. She has four children and two grandchildren.

Danielle was enrolled in Project Access through the Guadalupe Clinic for fibroid tumor complications. She had become so ill that it was difficult, sometimes impossible to go to work every day. With the help of Project Access, a generous OB/GYN and hospital teams, she was able to have the surgery that she needed. Danielle is currently still recovering from surgery but is expected to return to work with no restrictions. She's feeling well now, and is very grateful for her care.

We thank Danielle for sharing her Project Access story!
